

## **INTERNSHIP ADVERTISEMENT —**

IFS Consulting Limited is one of the leading service providers in Tanzania, delivering high-quality and reliable business solutions across various sectors. The company offers a wide range of professional services, with Human Resource services being among its key areas of expertise, including recruitment, staffing, outsourcing, and payroll management. On behalf of our client, among leading company in the telecommunications sector, we are inviting applications for Internship Programs in Fiber Installation & Maintenance. This is an excellent opportunity for aspiring professionals to gain practical experience and build a career in one of the fastest-growing industries. Internship provides exposure to real-world fieldwork, technical operations, and industry-standard practices, making it an excellent steppingstone for aspiring professionals looking to establish a career in telecommunications.

### **TECHNICIAN INTERN – FIBRE INSTALLATION & MAINTENANCE (50)**

**Location:** Dar es Salaam

**Duration:** 3–6 Months

#### **PURPOSE OF THE ROLE**

The Technician Intern will gain practical, hands-on experience in fiber optic installation and maintenance. This role provides exposure to fieldwork, technical troubleshooting, and teamwork within a professional telecommunications environment. Upon successful completion of the internship and based on demonstrated performance the company may offer full-time employment.

#### **ROLES & RESPONSIBILITIES**

##### **1. Installation & Maintenance**

- Assist in fiber optic cable installation, splicing, and termination.
- Support routine maintenance activities on fiber networks.
- Help identify and troubleshoot faults under supervision.
- Ensure proper use and care of tools, equipment, and safety gear during fieldwork.

## **2. Technical Support**

- Work closely with engineers and senior technicians on project tasks.
- Conduct basic testing of fiber connections using standard tools and equipment.
- Maintain accurate records of work performed, materials used, and field observations.
- Follow safety guidelines, company procedures, and industry standards at all times.

## **3. Learning & Development**

- Gain exposure to fiber optic systems, installation techniques, and network architecture.
- Learn to operate fiber testing equipment (e.g., OTDR, power meters, light sources).
- Develop practical skills in handling cables, connectors, and specialized tools.
- Participate in training sessions, toolbox talks, and on-the-job learning opportunities.

## **4. Collaboration & Reporting**

- Assist in preparing daily activity and fieldwork reports.
- Communicate effectively with team members during field assignments.
- Support engineers in project execution, documentation, and quality checks.
- Contribute to a positive, safe, and collaborative working environment.

## **QUALIFICATIONS AND SKILLS**

- Diploma in Electrical, Electronics, Telecommunications, or a related field.
- Basic knowledge of fiber-optic systems, tools, and installation techniques.
- Strong practical skills, willingness to learn, and ability to follow instructions.
- Good communication, teamwork, and interpersonal abilities.
- Ability to work in field environments and adhere to safety procedures.

## **HOW TO APPLY:**

If you meet the above criteria please send your curriculum vitae, academic certificates & other relevant documents to [careers@ifs.co.tz](mailto:careers@ifs.co.tz) before 10th, May 2026. Please indicate the position that you're applying for on the subject line.
